WATER INFRASTRUCTURE, INDUSTRY TECHNOLOGIES & SUSTAINABILITY

WATER TECH EXPO - the only B2B exhibition for Industrial and Public Water Management in Bulgaria will bring together for 13th time leading national and international companies

USING WATER RESPONSIBLY

The only B2B exhibition for Industrial and Public Water Management in Bulgaria, which started as WATER SOFIA, in 2019 will have its 13th edition under the new WATER TECH EXPO. The event brings together major Bulgarian and foreign companies from 6 to 8 March 2019 in Inter Expo Center.

The aim of the organizers from Inter Expo Center and the Bulgarian Water Association is to provide WATER TECH EXPO professionals with an annual business platform for exchange of information, expertise, know-how

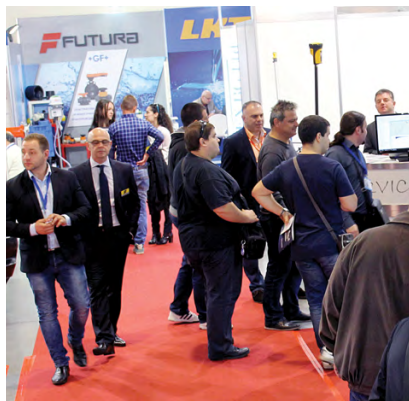

and technologies for the overall management of water resources. For many years the Bulgarian water sector has faced many challenges concerning its modernization. The exceptional benefits of funding under the Operational Program "Environment 2014-2020" and the introduction of innovative technologies are of key importance to growth in the sector. WATER TECH EXPO is the meeting place of Bulgarian and international specialists involved in various industrial and infrastructure projects in the water industry of the

country.

The focus of the edition in 2019 will be the industrial use of water. With the parallel conduct of the exhibition and the 11th BULAQUA International Conference on topical issues affecting the development of the water sector and attracting numerous representatives of public, state and municipal institutions, the organizers will inform the businesses about the opportunities for building integrated water infrastructure and modernizing the systems for economical consumption of water resources.

WHY PARTICIPATE

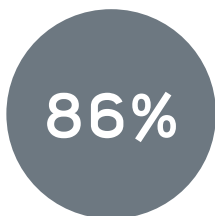

- WATER TECH EXPO provides an analysis of the market situation as well as an opportunity to penetrate new markets.
- WATER TECH EXPO provides an excellent business environment for meeting new clients and partners
- Participating at WATER TECH EXPO makes you a part of the major companies which carry out reforms in Bulgarian water sector

- WATER TECH EXPO provides its exhibitors an opportunity to exchange innovative solutions, best practices and contribute to the development of the sector in SEE Europe
- WATER TECH EXPO generates a wide visitor interest from Water Service Management companies, Construction Firms, Industrial sector representatives, Architectural designers and Constructors,

Manufacturers and Representatives of Food & Beverage industry, Pharmaceutical industry, Metallurgical industry, Agrobusiness, Hospitality and Spa, Ecology and Control, IT and municipal authorities, educators, students and many other specialists.
